Towel

Provide a clean and hygienic hand drying experience.

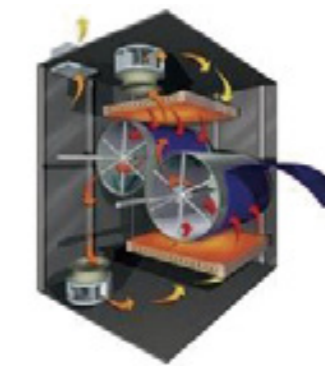

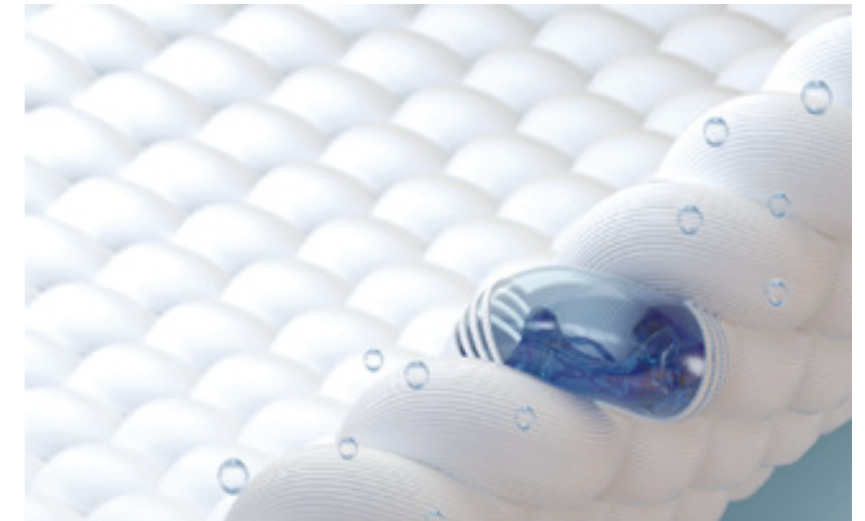

TAD Towel Products (Through Air Drying)

TAD technology removes water during production by pulling high temperature air through the sheet. By using air, paper manufacturers are able to maintain the fiber thickness and provide up to twice the bulk and absorption capacity for the same basis weight. TAD only uses virgin fibers providing a premium, softer product. With an emboss formed during the process, TAD provides users with a product ideal for cleaning spills, wiping down surfaces and hand drying.

Compared with traditional regular paper hand towel, TAD is bulky, softer and stronger absorbency, and the GSM is lower than regular paper. It feels like cloth not paper, without any splices. Strong and absorbent for efficient hand-drying after washing hands. Only need to pull out one piece every time and don't need to wait. Widely used in some High-end public places such as Golf Course, Five star hotel, Casino, Private club, Airport and so on. No any paper bits left on skin after using. Degradable, Insoluble in water, don't throw it to sewer.

Through-Air Drum Drier Features Diagonally Offset Drums to increase Drying Area.

- Pack Sheet: 50-100sheets
- Equipment cut length: 300mm/230mm
- Equipment width: 500mm/400mm
- Embossing: ✓

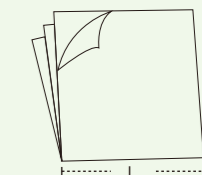

This is the new alternative to wipers, light-duty cleaning and wiping applications. Ideal for front and back-of-the-house applications, that is super absorbent and reusable for less! These cloths have a soft surface and can absorb 4 times their weight in liquid, making them great for soaking up spills and cleaning up messes. It can be used with detergents to clean, sanitize and reuse. Color towel options aid in prevention of cross-contamination by keeping cleaning functions separate and distinct.

1/4 FOLD WIPER

-Function: Disposable environmentally friendly cup holder, commonly used in restaurants or beverage stores, used to stabilize beverage cups.
 -Raw materials: recycled plant fibers as raw materials, natural and environmentally friendly.
 -High strength: high strength, not easy to deform, can meet the normal use of users.
 -Safety: During the use of the product, plant fiber will not release toxic and harmful substances.
 -Degradable: After the product is used, it will be degraded and returned to nature through landfill or composting.

Accessories

Made from eco-friendly corrugated paper, these drink carriers securely hold multiple cups, provide heat insulation and anti-scald protection, are easy to carry, and ideal for takeaway coffee, milk tea and other beverages.

Cardboard Packaging

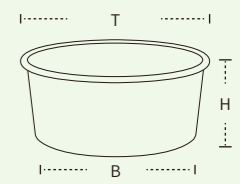

The containers are made from sustainable and environmentally friendly wood pulp and are recyclable. This line of products is waterproof and oil proof.

Soup Cup is suitable for hot food packing scenarios, commonly used for soup, porridge and other food containers, made of food-grade cardboard, with environmental concept, environmentally friendly and biodegradable. Support printing customization. The corresponding lids are available in PP plastic and paper, suitable for different food packaging occasions.

Made of food-grade cardboard, suitable for large-capacity food packaging, a variety of sizes to choose from, can do customized printing.

Made of food-grade paper, lightweight, environmentally friendly, single-use features, designed with good compression resistance and not easy to deform. Widely used in food packaging and food service. Lids are available in PET/PP and cardboard materials, suitable for different food packaging scenarios.

This take-out lunch / chicken box is perfect for restaurants, cafes, delis, and caterers with a grease resistant design that minimizes messes. The bright white exterior allows for endless options of what goes in the box. Piping hot fried chicken and french fries easily go from deli counter to end destination in this box. Cold sandwiches, sides, even baked goods travel.

It can be used to hold cookies, pastries, and other baked goods, using food-grade kraft card, which can be direct contact with food. One-piece construction ships flat to maximize storage, with easy fold-and-assemble design and a sturdy structure that resists deformation during delivery.

· Viewing Window: The window enhances product visibility to boost impulse sales and makes it easy to see how much food is left.
· Seals in Freshness: The plastic liner prevents natural oils from seeping out or into the bag, while the tin tie closure makes it easy to seal and open the bag.
· Customizable Design: Customize your own logo for free advertisement.
