OUR SERVICE

Lopie provides integrated solutions of foodservice and Jan&San disposable paper products to global customers.

LOGISTICS

Lopie warehouses are strategically located in Guigang, Dongguan, and Penang, Malaysia, offering consolidation and logistics services to our global customers. We provide comprehensive logistics solutions, including port of departure services, shipping schedule selection, end-to-end tracking, and destination support. Our one-stop service ensures seamless production, transportation, and delivery. With an experienced logistics team managing customs clearance and real-time logistics information, we guarantee a smooth and efficient supply chain.

WAREHOUSING & CONSOLIDATION

The Guigang Lopie base features five warehouses, 24 container loading docks, and raw paper loading platforms, covering a total storage area of over 50,000 square meters. We offer efficient warehousing and consolidation services to streamline distribution and reduce storage and logistics costs. Our dedicated and experienced team ensures that premium products are shipped to your warehouse accurately and on time.

PRODUCT SUPPLIER

Lopie has established a robust quality control system that meticulously monitors every stage of production, from raw materials to finished products. This ensures we deliver safe, high-quality products that meet and exceed customer expectations.

LOPIE FACTORIES

Lopie operates nine state-of-the-art production plants with a daily capacity of 800 tons of household paper manufacturing and 200 tons of food packaging conversion. With a workforce of over 2,000 employees, we serve 200 customers across 30 countries, offering comprehensive one-stop product solutions and customization services.

MALAYSIA PENANG LOPIE FACTORY I MALAYSIA PENANG LOPIE FACTORY II MALAYSIA PENANG LOPIE FACTORY III

NANSHA LOPIE FACTORY I

The first phase of the Nansha Lopie Project covers an area of 30,000 square meters, with an investment of 100 million yuan, an annual output value of 400 million yuan, and employs 200 people.

NANSHA LOPIE FACTORY II

The second phase of the Nansha lopie project covers an area of 56,300 square meters, with a building area of 230,000 square meters, an investment of 1.2 billion yuan, an annual output value of 2.5 billion yuan, and an estimated workforce of 1,200 people.

GUIGANG LOPIE FACTORY

Guigang Lopie is situated in the Guangxi Guigang Circular Economy Industrial Park, spanning 500,000 square meters. Construction began in 2020, with the first phase commencing production in 2021. By 2025, 200,000 square meters of the facility had been completed and put into operation.

DONGGUAN LOPIE HUANGCHONG FACTORY

Dongguan Lopie features a 160,000-square-meter workshop dedicated to processing household paper, paper tableware, and food packaging. With an annual processing capacity of 80,000 tons, the facility ensures high-quality production and efficient supply chain management.

DONGGUAN LOPIE SILING FACTORY

Dongguan Lopie Siling Factory boasts advanced technology, craftsmanship, and a complete production line for printing napkins. Specializing in the development and conversion of customized printed napkin products, the facility spans 6,000 square meters and operates with a dedicated team of over 60 employees.

DONGGUAN LOPIE XIANGWANG FACTORY

Dongguan Lopie Xiangwang Factory, located in Hongmei Town, Dongguan, spans 100,000 square meters and specializes in processing finished products such as corrugated cartons, boxes, food packaging containers, and pizza boxes. With an annual processing capacity of 120,000 tons, the facility also offers warehousing and consolidation services to support efficient distribution.

MALAYSIA PENANG LOPIE FACTORY I

Malaysia Penang Lopie Factory I covers an area of 20,000 square meters and produces household paper and pizza boxes, providing dual solutions of household paper and packaging for global customers!

MALAYSIA PENANG LOPIE FACTORY II

Malaysia Penang Lopie Factory II has been fully completed and put into operation, spanning 20,000 square meters. As a strategic hub for the Lopie Group in Southeast Asia, it will provide comprehensive household paper and container solutions to the North American market.

MALAYSIA PENANG LOPIE FACTORY III

Malaysia Penang Lopie Factory III covers an area of 10,000 square meters. With more than 30 production lines operating at full capacity and a team of more than 100 professionals, the plant achieves an annual production capacity of 30,000 tons of corrugated packaging products.

SUSTAINABLE DEVELOPMENT

Plastic pollution is sweeping across the globe, and disposable products have become a heavy burden on the environment. Lopie takes "transmitting and sharing the quality of life" as its mission, advocates the environmental protection concept of "respecting life and protecting the earth", actively practices the scientific concept of development, and strives to achieve the business purpose of win-win cooperation. Lopie always supports the protection of forests and the ecological environment, and uses tree-free materials such as sugarcane, reed, and waste paper to produce finished products to achieve sustainable development.

RAW MATERIALS

Lopie has always supported the protection of forests and the ecological environment. Its products are made from sugarcane pulp, wood pulp, and recycled environmentally friendly materials, and are biodegradable, compostable, and non-polluting. Every product is made from FSC-certified virgin pulp, with 0 fluorescent agents and 0 bleaching agents. Lopie's products have several certifications, including industrial composting certification and home composting certification, to ensure that our products are designed with the environment in mind.

FACTORY

We already got the Organizational Greenhouse Gas Verification Statement. Further action will be made later for the rest stages/phases.

- · Medium and Long-term Development Plan
- · Establishment of scientific carbon target (SBTi)
- · Zero Carbon Factory Achievement Certification

SOLAR-PANEL SYSTEM

OUR TEAM

We have more than 2,000 employees and an excellent team based in China and serving clients around the world. They are a group of serious, rigorous and meticulous people who are here to serve you.

"At Lopie, our vision is to bring together a group of like-minded individuals who are idealistic, responsible and committed to collaborating with those in power to build a great enterprise. We aim to provide green, environmentally friendly products through innovative, energy-efficient methods while upholding the values of warmth, vitality, trustworthiness, respectability and excellence. It provides comprehensive services to customers around the world and, more importantly, exports the spirit of a gentleman to the world."—LOPIE CEO Tiger

14 Copyright@LopiePaper | LOPI

TAD technology removes water during production by pulling high temperature air through the sheet. By using air, paper manufacturers are able to maintain the fiber thickness and provide up to twice the bulk and absorption capacity for the same basis weight. TAD only uses virgin fibers providing a premium, softer product. With an emboss formed during the process, TAD provides users with a product ideal for cleaning spills, wiping down surfaces and hand drying.

Compared with traditional regular paper hand towel, TAD is bulky, softer and stronger absorbency, and the GSM is lower than regular paper. It feels like cloth not paper, without any spices. Strong and absorbent for efficient hand-drying after washing hands. Only need to pull out one piece every time and don't need to wait. Widely used in some High-end public places such as Golf Course, Five star hotel, Casino, Private club, Airport and so on. No any paper bits left on skin after using. Degradable, Insoluble in water, don't throw it to sewer.

Through-Air Drum Drier Features Diagonally Offset Drums to increase Drying Area.

Roll Wiper

This is the new alternative to wipers, light-duty cleaning and wiping applications. ideal for front and back-of-the-house applications. that is super absorbent and reusable for less! These cloths have a soft surface and can absorb 4 times their weight in liquid, making them great for soaking up spills and cleaning up messes. It can be used with detergents to clean, sanitize and reuse. Color towel options aid in prevention of cross-contamina \(\Pi \) tion by keeping cleaning functions separate and distinct.
